SUMMARY

I am currently pursuing my degree in Information Technology and actively engaged in a graduate program. As a dedicated student, I am eagerly preparing to attend interviews and embark on my career as a software developer. Proficient in programming languages such as Java and JavaScript, I possess a solid foundation in database management and web development. As a fast learner, I am enthusiastic about expanding my knowledge in the field of software development. Equipped with strong analytical and problem-solving skills, I am confident in my ability to make valuable contributions to any software development team.

PORTFOLIO
